

Dechert's Fund Finance Practice

Dechert's fund finance practice represents asset managers, investment funds and alternative lenders on a wide array of fund financings and related transactions.

Our team includes leading practitioners who act for both borrowers and lenders across all layers of the capital structure, including at the time of fund formation and downstream transactions.

Our Capabilities:

Dechert lawyers advise on the full range of fund financing and financial products, including subscription line facilities, asset-backed loans, NAV facilities, CLOs, TRSs, bond offerings and structured equity.

We have a market leading practice in advising asset managers and their lenders in loans to private credit funds to finance investments in middle market and broadly syndicated corporate loans.

We have extensive experience with subscription line facilities and have advised some of the largest global asset managers on syndicated and bilateral subscription lines involving multiple jurisdictions, sovereign wealth fund and development finance institution investors, hybrid facilities and other complexities.

Dechert lawyers have also advised a number of global financial institutions and banks on the development and implementation of their subscription facility lending businesses.

A Global Team:

Our fund finance team is fully integrated within our global finance practice and includes members of our global private funds group, enabling us to keep up-to-date on recent trends and developments in both financing and fundraising in the U.S., Europe, the Middle East and Asia.

Dechert has a premier global private funds practice including a presence in the key fund formation jurisdictions of Dublin, Luxembourg, Paris, Singapore and Hong Kong. We work closely together to deliver practical and effective deal structuring and execution solutions which draw upon a deep understanding of fund structures and financing options available to fund entities.

Our team adopts a multi-disciplinary approach that leverages the experience of Dechert's global private funds, asset management, ERISA, tax, regulatory and sanctions practices, amongst others, collaborating across offices to provide value-added service to our clients.

Representative Fund Finance Products

We advise across a broad range of legal and financial issues relating to the investment of capital in and the deployment of capital by funds.
